**COVID-19 SYMPTOMS FLOWCHART and
RETURN TO SCHOOL PROTOCOL**

Possible Quarantine Outcomes in Consultation with Public Health

FOR STUDENTS

- If no symptoms develop, students can return to school 14 days from their last contact with the COVID-19 case
- If symptoms develop, students should be evaluated by a health care provider
- If a student tests positive for COVID-19, they should isolate for 10 days
- If a student tests negative for COVID-19, they must still complete their 14-day quarantine before returning to school

If PREVIOUSLY POSITIVE

Those who have been previously diagnosed positive for COVID-19 within the past 12 weeks, and were exposed to a COVID-19 case, do not need to quarantine

****Close Contacts:** Individuals who have been within 6 feet for more than 15 minutes with a positive COVID-19 person during the infectious period.
